

School Name Cross-Check – Musthafa's Visit Log vs Malappuram School Data

Every school in Musthafa's log (22 Jun – 01 Oct 2026) checked against the official Malappuram School Data (1,569 schools) to find schools entered under a different name or spelling. Prepared 02 Oct 2026.

Result in brief

Item	Count
Entries in Musthafa's log	693
Entries matched to an official school (under any name)	464
– matched by name / place (spelling or format differs)	404
– confirmed by same phone number as well	60
– found only through phone number (name entered very differently)	0
Distinct official schools covered	422
Official schools entered more than once in the log	40
Entries not in the official list (mostly private / pre-primary / colleges)	229
Matches to verify (phone number belongs to another school)	7

How to read the tables: "Name in Musthafa's log" is exactly what was entered; "Official name" is the same school in the Malappuram School Data. Highlighted rows were matched only after this re-check (different name, place spelled differently, or found by phone number).
