6. Deepika's data - mobile numbers, checked against the visit log

All schools in Deepika's Wayanad data that have a 10-digit mobile number. "Visited?" shows whether the executive has visited the school; "Same no.?" shows whether the executive logged the same mobile number as Deepika's data.

7. Free stay pass feedback - executive-visited schools

The feedback sheet has 84 filled rows. Only one of them is a school from this executive's visit log; the rest are schools in other districts. The visit log also notes that Polytechnic College, Meenangadi "visited with free pass" (not in the feedback sheet).

Executive-visited schools found in the feedback sheet (1)

#	Visit date	Person	Mobile	School / Institution	Persons	Executive	Glamping stay	Park / stay opinion	Feedback	Tour period	Final status	Chance

8. How this report was prepared

1. Sources compared: (1) Deepika Wayanad data - 315 schools with sub-district and phone; (2) State Syllabus Wayanad School Data - 306 schools with assembly, level and phone; (3) CBSE list (29 Wayanad schools) and ICSE list (5 Wayanad schools) from the ICSE/CBSE file; (4) Executive visited data - 320 contact rows logged 6 Jul - 3 Sep 2026; (5) Free stay pass feedback - 84 filled rows.
2. Main areas are the four Wayanad educational sub-districts used in Deepika's data: Kalpetta, Mananthavady, Panamaram and Sulthan Bathery. Town schools that Deepika listed without a sub-district were placed by town. The State Syllabus and Deepika lists overlap almost fully, so each school is counted once (348 unique directory schools after adding CBSE/ICSE and removing duplicates).
3. Visited = the school appears in the executive visit log. Each visit row was matched to the directory by hand (school type + locality, spelling variants such as Thariyod/Thariode, Kunjihome/Kunhome, Valad/Valat). Where a school was contacted more than once (e.g. HS and HSS sections), it is counted once.
4. Anganwadis, colleges, ITIs, pre-schools and private schools that are not in any directory are listed per area under "Other institutions visited". Rows with no place were given the area of the other schools visited the same day.
5. 2nd visit month: taken from the "Second Visit" column of the visit log. Where that column is blank, the month is derived as one month before the earliest tour month mentioned in the latest remark, and is marked with *.
6. Chance of confirmation: HIGH = tour month given in the latest call and the contact is reachable, or the school used the free stay pass and is interested; MEDIUM = details shared / follow-up needed / tour month mentioned earlier but not reachable on the latest call; LOW = not interested, wrong or non-existent number, or never reached.
7. "No mobile number" means no 10-digit mobile number in any source; only an office landline (04935/04936) or no number at all is available, so these schools need a direct first visit.
8. Areas the executive visited: every directory school is tagged with its locality (the place in its name, or the address for CBSE/ICSE). A locality counts as toured when the executive visited a school or institution there. "Pending first visit" lists only unvisited schools in toured localities of the same sub-district; schools in localities the executive has not reached yet are listed separately at the end of each area.
9. Free stay pass: of the 84 filled feedback rows, only one is a Wayanad school from this visit log; the others are schools in other districts handled by other executives, so they are not part of this report.
10. Date corrections in the visit log: "07.06.2026" read as 07.07.2026, and "17.08.206" / "09.08.206" read as 2026.
