Observations

- Kasaragod is the best-covered area (82 of 144 schools, 57%) and produced the most contacts (120) and high-probability schools (25).
- Cheruvathur (8%) and Chittarikkal (3%) in the south-east are almost untouched — 137 listed schools still to visit.
- Manjeshwar had the most extra (unlisted) institutions visited (18), mostly by Shibili.
- Kumbala saw duplicate effort: most of the 19 schools visited by both executives are here.
- The only confirmed booking (Jyothi Bhavan, Nileshwar) came through a B2B contact, not the executives' visits.
