6. Notes

- School counts come from the 222 area sections of the school report. The totals match the report's own cover (552 second-visit schools, 565 pending).
- The report counts every covered school as a "second visit due", so second visits = 552. Only 231 of them have a follow-up month written down.
- Some schools appear twice under different contact persons (for example G.V.H.S.S. Alanallur). The report lists them twice, so they are counted twice here too.
- Free passes: 104 filled rows in the register (blank template rows ignored). 3 rows have no park-visit date and 2 rows have no school name.
- Persons total counts "12 (family visit)" as 12.
