How to read this report

Schools in district list = schools listed for that education area in the Kozhikode school list. **Listed schools visited** = schools from that list that Basheer visited or that came through his free pass leads. **Contacts visited** = every row in Basheer's log, including pre-primary schools, anganwadis and staff contacts that are not in the district list.

2nd visit month is taken from the latest follow-up call. Where the "second visit" column of the log shows a different month, the Month check column shows both (for example "Sheet Dec / latest call Jan"), so the executive can confirm before planning.

Booking chance: **Confirmed** = the school is in the confirmed booking sheet. **High** = interested, almost confirmed, hot lead or confirmed in the free pass tracker. **Medium** = trip month given, or the school will decide after discussion or after the free visit. **Low** = not sure, busy or not reachable. **Not interested** = declined, booked another destination, or wrong/invalid number.

Data notes

How the four files were combined

• Basheer's visit log has 684 school contacts (676 of them in Kozhikode district). Each locality was mapped to its Kozhikode education area using the addresses in the Kozhikode school list (for example Nanmanda → Chelannur, Mukkam/Karassery → Kunnamangalam, Feroke/Ramanattukara → Kozhikode).

• On 25–27 Jun and 29 Jun – 3 Jul the log has no locality. Those rows were placed by the other schools visited the same day, and are marked * in the visited lists.

• Basheer's 8 visits on 17 Sep 2026 (Ullanam, Parappanangadi, Puthanpeedika, Kottakkal) are in Malappuram district, so they are not in the Kozhikode area pages. One of them, BEMLP School Puthanpeedika, is booked for 30 Oct 2026 (booked by Sayana for Basheer, 38 students).

• Basheer did not work in the Vadakara, Perambra or Kozhikode URC South areas, so those areas are left out. Bookings from those areas (for example CSI EMS Chalappuram, Nallalam ALPS, Quba Edu Home, Rainbow School) are not shown.

• Free pass records were matched to the visit log by phone number. Basheer's free pass leads that are not in the visit log (mostly in Balussery and Chelannur) are added to the visited list as "Free pass".

• Bookings were matched by phone number and school name. A booking is shown in an area if the school belongs to that area, whichever executive took it; the "Link to Basheer" column says whether Basheer was involved.

• Names in the visit log are often generic ("L P School", "Pre Primary School"), so matching them to the district list is a best effort using the locality and the school type. Pre-primary schools and anganwadis are usually not in the district list, so they show "–" in the In district list column.
