

SCHOOL VISIT & COVERAGE REPORT

Executive Tour: Musthafa | Malappuram District, Kerala

Tour period covered: 22 June 2026 – 18 September 2026

Report generated: 20 September 2026

This report consolidates every school Musthafa visited during the tour, cross-verified against the CBSE Kerala school directory, the Kerala State-Syllabus (Government/Aided/Unaided) school census, and the ICSE Kerala school directory. Schools are grouped by the locality actually written on the tour sheet. For each locality the report shows schools already covered (with the second-visit month proposed, where noted) and schools identified in the official directories for that same locality that are not yet on Musthafa's visit log.

METHODOLOGY & DATA SOURCES

1. Visited-schools log

Musthafa's own day-by-day tour sheet (22 Jun – 18 Sep 2026), listing school type, name, place, tour coordinator/principal, contact number, follow-up remarks and (where noted) the month proposed for a second visit.

2. Locality grouping

Every visited school was grouped under the free-text locality Musthafa recorded on the tour sheet (village/town level, e.g. Chungathara, Edakkara, Perinthalmanna, Manjeri). Near-duplicate spellings of the same locality arising from handwriting/typing variance (e.g. "Nilamboor" / "Nilambur", "Areakod" / "Areacode", "Pandikkad" / "Pandikad") were merged into one locality. This is a finer grain than official revenue blocks/assemblies, matching the level of detail actually present in the tour sheet, per the areawise scope requested.

3. Pending (not-yet-visited) schools

Cross-checked against the CBSE Schools – Malappuram District directory, the ICSE Kerala Schools directory, and the Kerala State-Syllabus (Government/Aided/Unaided) census. A directory school is listed as pending for a locality only when that locality name appears as a whole word in the school's own name or registered address – not merely because it falls inside the same administrative block. This keeps the pending list tightly scoped to the localities Musthafa has actually covered, at the cost of not catching every directory school whose address is recorded only at block/assembly level.

4. Second-visit month

Taken from the "Follow-Up" column of the tour sheet, or, where that cell was blank, from a month explicitly mentioned in the remarks / direct-call notes for that row. Where no month is recorded anywhere for a visited school, no second-visit month is shown.

5. Type / Board classification

Government, Aided and Unaided-Recognised schools (state syllabus) are shown as "Govt" with the sub-type in brackets; CBSE- and ICSE-affiliated schools are shown as "CBSE" and "ICSE" respectively, per the official directories. Where the tour sheet did not record a type and no directory match was found, the school is marked "Type Not on Record".

6. Duplicate visits

Where the same school was called more than once, it is counted once as "Covered", dated to its first visit on the sheet; if any attempt carries a second-visit month, that month is shown.

7. The Malappuram-town locality

is excluded from the pending-schools cross-check: almost every school in the directories carries "Malappuram" as the district suffix in its name/address, which would otherwise make the pending list for this locality unreliable. Schools already covered there by Musthafa are still shown in full.

8. Source-sheet text clipping

In the original tour sheet PDF, a subset of contact-person names are clipped at the start (e.g. "ris Babu(Principal)" for what is very likely "Haris Babu (Principal)") due to a formatting artifact in that source file itself, ahead of any processing for this report. These are reproduced here exactly as they appear on the source sheet rather than guessed at; phone numbers and school names in the same rows are unaffected and complete.

FINAL SUMMARY – CATEGORY-WISE TOTALS

Board / Type	Already Covered	of which: Second Visit Scheduled	Pending First Visit
Govt (State Syllabus: Govt/Aided/Unaided)	562	163	176
CBSE	5	5	27
ICSE	1	0	1
Type Not on Record	12	7	0
GRAND TOTAL	580	175	204

Across the 241 localities Musthafa has toured, **580** schools have been visited, of which **175** have an explicit second-visit month noted, and **204** directory-listed schools (Govt/CBSE/ICSE) in those same localities remain to be visited for the first time.
