SCHOOL VISIT CROSS-CHECK REPORT

Executive: **Musthafa** | Malappuram District (areas visited only)

Report generated: 25 October 2026

Source file	What it contains	Records used
MUSTHAFA VISITED SCHOOL DATA	Musthafa's visit sheet: institution, contact person, phone, Google plus-code address, town	921 rows (904 inside Malappuram)
Deepika's Malappuram data	Official school list for Malappuram district: school name, block, finance type, phone	1579 schools
Free Pass Data	Lead tracker with telecalling feedback (104 leads) + free-coupon park-visit log	104 leads / 82 log rows
CONFIRMED BOOKING DATA	Confirmed tour bookings, Aug-Nov 2026	92 booking rows

How the data was cross-checked

1. School-by-school verification. Each of Musthafa's 921 entries was checked against all 1579 schools in Deepika's list using three signals: **(a) school type code** (GLP, GMLP, AMLP, AUP, GUP, GMUP, GHS/GHSS etc.), **(b) place name** (town in the sheet plus the place letters in the school name, with spelling variants such as Kizhisheri/Kizhisseri and Pookottur/Pookkottur), and **(c) phone number**. Every match was then reviewed by hand.

2. Truncated names. In Musthafa's sheet the school name and phone columns are cut off (for example "GLP School T", "91 98460860"). The report shows the names exactly as written in the sheet. Where a match was found, the full official name from Deepika's list is shown next to it. Phones are compared on the first 8 visible digits.

3. Match levels. Yes = type and place agree with exactly one school in Deepika's list. **Possible** = more than one school fits (for example, Kondotty has three "GMLP School" entries and two GMLP schools in the list), or only the phone agrees while the name or place is different. Only 8 phone digits are visible, and two different numbers can share the same first 8 digits, so a phone-only match is never treated as confirmed. These cases are listed again in the cross-check section. Possible schools are not counted as "not yet visited". **No** = not in Deepika's list. Most of these are private English-medium, CBSE or pre-primary schools, or tuition and coaching centres, which Deepika's list does not cover.

4. Areas. Areas follow the blocks in Deepika's list (Areacode, Kondotty, Malappuram, Mankada, Perinthalmanna, Nilambur, Wandoor, Kalikavu, Kuttippuram). The municipality schools of Kondotty, Malappuram, Nilambur and Perinthalmanna are added to the block of the same name, and Manjeri municipality is shown on its own. An entry with no match is placed by its town and plus-code location. Only areas where Musthafa visited at least one school are covered. Entries in Kozhikode district (Cheruvadi, Mukkam, Thottumukkam, Omassery and others) are left out, as requested.

5. Total schools in an area = schools in Deepika's list for that area + schools Musthafa visited there that are not in Deepika's list. **Not yet visited** = schools in Deepika's list for the area with no Yes or Possible match.

6. Second visit and month. Musthafa's sheet has no visit dates. A second visit is therefore taken from (a) the same school appearing more than once in his sheet (month not recorded), (b) a free-pass park visit (month from the park-visit log), (c) the tour or follow-up month from telecalling, and (d) the date of a confirmed booking.

7. Free pass, telecalling and bookings were linked by phone first, then by school name and place, and finally by contact person. This finds records that appear in another file under a different name, place or executive.

Other observations

• Possible matches that need a call to confirm: 48 entries where the type and place fit more than one school in Deepika's list (shown as "Possible" in the area tables).
• Spelling and place differences between files: Kizhisheri/Kizhisseri, Pookottur/Pookkottur, Areekode/Areacode, Edavannapara/Edavannappara, Cheruvattoor/Cheruvattur, Thiruvaly/Thiruvali, Anakayam/Anakkayam, Perinthalmana/Perinthalmanna and others. These were treated as the same place.
• Several schools appear more than once in Musthafa's sheet with different contact persons (for example GLP School Kavanur: Mufeeda and Ramlath; VAUP School and VAUP English, Kavanur). These are counted once in coverage and shown as repeat visits.
• Deepika's list does not include most private English-medium, CBSE, pre-primary or Islamic-management schools, so many of Musthafa's private-school visits show "No" in the Deepika column. This does not mean the entry is wrong.
