6. Key observations & action points

- **Conversion gap:** 330 contacts and 56 high-probability schools, but 0 bookings. Follow-up is the main pending task.
- **Follow-up not logged:** results recorded for only 3 of 48 planned second visits. All Aug/Sep visits are overdue.
- **Coverage gap:** Cheruvathur (8%) and Chittarikkal (3%) are almost untouched; 487 listed schools are still pending.
- **Duplicate effort:** 19 schools (mostly Kumbala) were visited by both executives. Split areas clearly.
- **Data quality:** invalid 11-digit phone (Basic School Ichlampady, Shibili), a shared phone for two schools, wrong school types in Shibili's log.
