How this was checked

Aslam's visit log (441 entries) was compared with Deepika's Malappuram list (1579 schools), the State-syllabus census (1567 schools), the CBSE/ICSE directory (96 Malappuram schools) and the free stay-pass feedback register (83 entries). Schools were matched by phone number first, then by school type (AMLPS, GMUPS, HSS...) plus place name, allowing for spelling variants (Tirurangadi/Thirurangadi, Kodinhi/Kodinji). Repeat visits to the same school are counted once. Areas are the assembly constituencies used in the State census; places were mapped using the census school names, and a few unclear places were taken from that day's route.

Second visit month: taken from the 'Second Visit' column of Aslam's sheet and checked against the tour period in the call remarks (the rule used in the sheet is one month before the tour). Where the column was empty but a tour month was given, the month was derived the same way (28 schools, marked 'Derived'). Confirmation probability: Very High = used the free pass with positive feedback or pass booked; High = tour month given plus a positive response; Medium = positive response or tour month only; Low = not reachable / busy / no remark yet; Very Low = wrong number, declined or not interested. Mobile numbers are 10-digit numbers starting 6-9; other numbers are landlines (shown with a leading 0).

Only 3 of the 83 free-pass feedback entries belong to schools in Aslam's areas; the rest are from other districts or other executives' areas. 244 schools Aslam visited (mostly private, pre-schools and anganwadis) are not in any official list; they are added to the area totals as 'Found only in Aslam's log'.

Area: Tanur
